Multiple Sources

The Mars Rover can choose among various sources and launch from the source that has the shortest path to the given destination. To find the shortest route to the destination, any algorithm can be used.

Mars Rover

Choose a source to start.

Source 1

The Mars Rover can start here. It may select this source if the path is shortest.

Source 2

The Mars Rover can start here. It may select this source if the path is shortest.

Source 3

The Mars Rover can start here. It may select this source if the path is shortest.

Source 4

The Mars Rover can start here. It may select this source if the path is shortest.

Destination

The Mars Rover will stop here.
